PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

This action involves contracting for the cleaning of 22,053 catch basins at various locations in the County.

This project is part of Public Works' ongoing program to clean out all of the catch basins in the flood control system prior to the upcoming storm season.

Implementation of Strategic Plan Goals

This project is consistent with the County Strategic Plan Goal of Service Excellence since it will reduce the probability of flooding due to plugged catch basins and also prevent debris from entering the receiving waters.

FISCAL IMPACT/FINANCING

The estimated construction cost is in the range of \$200,000 to \$230,000.

Sufficient funds for this project are available to the Flood Control District for the Fiscal Year 2004-05.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The enclosed plans and specifications include the contractual provisions, workmanship standards, and equipment requirements necessary for the prosecution of this project. The contract agreement will be in the form previously approved by County Counsel.

As required by your Board, language has been incorporated into the project specifications stating that the contractor shall notify its employees, and shall require each subcontractor to notify its employees, that they may be eligible for the Federal Earned Income Credit under the Federal income tax laws.

ENVIRONMENTAL DOCUMENTATION

This project is categorically exempt pursuant to Class 1, Subsection (e), of the revised County Environmental Document Reporting Procedures and Guidelines adopted by your Board on November 17, 1987.

CONTRACTING PROCESS

This project will be contracted on an open competitive bid basis. The contract will be awarded to the lowest responsible bidder meeting the criteria established by your Board and the California Public Contract Code.

To increase contractor awareness of our program to contract work to the private sector, this project will be listed on the County website for upcoming bids.

The project specifications contain provisions (1) requiring the contractor to comply with the County's Child Support Compliance Program, (2) requiring the contractor to report solicitations of improper consideration by County employees and allowing the County to terminate the contract if it is found that the contractor offered or gave improper consideration to County employees, (3) requiring the contractor to comply with the requirements of the County's Contractor Employee Jury Service Program, and (4) requiring the contractor to comply with the Newborn Abandonment Law (Safely Surrendered Baby Law).

The project specifications also contain a provision that, should the contractor require additional or replacement personnel to fill employment openings, consideration shall be given to hiring qualified participants in the County's Greater Avenues for Independence or General Relief Opportunities for Work Programs.

To ensure that the contract is awarded to a responsible contractor with a satisfactory history of performance, bidders are required to report False Claims Act violations, labor law/payroll violations, debarments, their civil litigation history, and information regarding prior criminal convictions. The information reported will be considered before making a recommendation to award.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

The project is to be completed in 65 working days. It is estimated that the work will start in June and be completed in September 2005. Local residents and businesses may be minimally impacted during the time the work is in progress.
